New Traffic Signal to be Fully Activated on Tuesday, August 7, 2018: Volunteer Parkway and Cox Street

The City of Bristol Tennessee announces that the new traffic signal at Volunteer Parkway and Cox Street, which has been operating in “flash” mode since July 31, will be activated to full stop-and-go mode, mid-morning on Tuesday, August 7, 2018. Motorists are cautioned to be extra alert in this area as drivers get used to the new traffic pattern.

This area has been a work zone for the Tennessee Department of Transportation’s contractors since mid-May, and will continue to be a work zone for follow-up work after the traffic signal is activated.

Any questions should be directed to David Metzger, Bristol Traffic Engineer, at (423) 989-5522.
