Executive Summary

AP-05 Executive Summary - 91.200(c), 91.220(b)

1. Introduction

The City of Bristol, Tennessee is a part of the Kingsport-Bristol-Bristol, Tennessee-Virginia Metropolitan Statistical Area and is a Department of Housing and Urban Development Community Development Block Grant Entitlement City. As such, Bristol receives a formulated amount of funds annually. The CDBG program is authorized under Title 1 of the Housing and Community Development Act of 1974, Public Law 93-383, as amended; 42 U.S.C.-5301 et seq. This year Bristol, Tennessee expects to receive \$214,415 in Community Development Block Grant (CDBG) funds and \$1,107,741 in HOME funds.

The projected use of funds has been developed to give maximum priority to activities that will carry out one of the national objectives as follows:

1. Benefit low- and moderate-income (LMI) families.
2. Aid in the prevention or elimination of slums or blight.
3. Other community development areas which demonstrate a particular urgent need or because existing conditions pose a serious and immediate threat to the health or welfare of the community and where other financial resources are not available to meet such needs.

The City of Bristol Tennessee certifies that the following activities proposed for the coming year meet one of the three above-listed national objectives.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

The Consolidated/Strategic Plan provides a guide to address the Cities' needs for five years using CDBG and HOME funds as well as other leveraged funds. The Action Plan is for a one-year period. There are three broad national objectives that each project must meet in at least one category. They are:

- Provide decent affordable housing
- Create a suitable living environment
- Create economic opportunities

Outcomes show how programs and activities benefit the community and the people it serves. The three measurable outcomes that will illustrate the benefits of each of this year's activities, as well as the five years covered in the Consolidated Plan, are:

- Improve Availability/Accessibility
- Improve Affordability
- Improve Sustainability

While HOME funds must be used for housing purposes, CDBG funds may be used for both housing and non-housing activities. Both must be used to promote viable communities by following one of the three objectives listed above. All funds must serve low- to moderate-income areas, persons or special needs individuals including the homeless, persons with disabilities, victims of domestic violence or child abuse/neglect, persons with substance abuse, AIDS, mental illness, and the elderly. An abbreviated list of the City's and the HOME Consortium's goals include:

- The expansion of first-time homeownership opportunities for very low- low-and moderate-income households.
- Expand opportunities to qualified very low, low, and moderate income homeowners to rehabilitate their homes to correct minor and major code violations.
- Develop transitional and supportive housing for at-risk clients.
- Develop new single-family housing units within the Consortium.
- Expand rental housing opportunities for income-qualified individuals and families.
- Assist in the expansion of support services for the at-risk population.
- Neighborhood revitalization through improving housing stock, removing dilapidated structures, installing sidewalks and recreational facilities - thus creating viable, thriving neighborhoods.

- Assist with economic development opportunities through the creation or expansion of job opportunities for low-and moderate-income people.

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

The City of Bristol Tennessee has consistently met or exceeded its goals to address decent housing and assistance to first-time homebuyers. Bristol uses CDBG funds for emergency rehab (max of \$10,000.00 before soft costs) and major rehab projects (max of \$40,000.00 before soft costs). Other projects undertaken include demolition of dilapidated, unsafe structures due to citizen input and the visible deterioration of buildings in many of our neighborhoods. We have chosen neighborhood stability/revitalization again this year due to the success of the current sidewalk project. We believe we have done an outstanding job in managing our CDBG and HOME funds, leveraging federal dollars with public and private sources, partnering with local agencies to obtain necessary services for special needs populations and serving the low- and moderate-income residents of our city.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

The City of Bristol's most recent Consolidated Plan (2020-2024) is developed through a collaborative process whereby the community identifies local critical needs and assists in establishing an Action Plan. Citizen participation is a critical part of the Consolidated and Action Plans, including developing, amending and reporting on program performance annually. The City solicits and encourages the participation of all citizens, including minorities, non-English speaking populations, and persons with disabilities. Public hearings and community meetings are conducted in various areas of the Consortium to give more residents the opportunity to voice their opinions.

1. Consultations with Other Community Institutions.

In previous development of the Five-Year Consolidated Plan and this new 2021 Action Plan, the City consulted with other public and private for-profit and non-profit agencies that either provide or have direct impact on the broad range of housing, health, and social services used by Bristol residents. These agencies provided knowledge regarding local unmet needs and ongoing critical needs. The City Council has designated the Community Development Advisory Committee (CDAC) as the primary advisory body and as such, information on community needs and priorities have been discussed at their meetings.

2. Public Hearings.

There were several public meetings from the beginning stages of development of the Plan in order to gather information on community needs from citizens and local service providers until the completion of the plan. In compliance with the Citizen Participation Plan, the first public hearing was held electronically at the Community Development Advisory Committee (CDAC) meeting in Bristol on January 12, 2021, for both CDBG and HOME programs. A second public hearing is to be held on May 4, 2021, at the Bristol Tennessee City Council meeting (due to the COVID-19 pandemic this may become a virtual meeting).

3. Written Comments.

No written comments were received. Based on CDAC discussions and quantitative analysis, City staff prepared a draft Action Plan covering both the CDBG and HOME Programs. Notification of availability of the draft appeared in the local newspaper and the city's website. The public was able to review the draft at the local Housing Authority office (Bristol Housing) and in the Bristol Development Services office.

4. Action Plan and Public Hearings.

No written or verbal comments were received yet.

If comments are received at the final public hearing, a summary will be included in this final document. The City Council would consider comments from the public, the Northeast Tennessee/Virginia HOME Consortium Board recommendations, the Community Development Advisory Committee recommendations, and staff recommendations in composing this final Plan.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

All comments will be accepted. City staff has and will continue to confer with local agencies about input. Local agencies are a critical component for partnerships and funding resources to provide the services that CDBG and HOME cannot fund.

6. Summary of comments or views not accepted and the reasons for not accepting them

All comments would have been accepted. City staff has and will continue to confer with local agencies about input. Local agencies are a critical component for partnerships and funding resources to provide the services that CDBG and HOME cannot fund.

7. Summary

Several agencies and organizations participated in the consultation process including Bristol Housing, Appalachian Regional Coalition on Homelessness (ARCH), Bristol's Promise, public service organizations, Code Enforcement, public housing resident associations, United Way of Bristol, members of City Council, and the Community Development Advisory Committee. The Community Development Specialist regularly attends monthly or quarterly meetings throughout the year to stay informed including Bristol's Promise, ARCH, and is in contact with several housing and service providing agencies whether or not they are funded with CDBG or HOME funds. Staff continues to participate in the Bristol Community Response Coordinating Committee. The committee has expanded and multiple reports are given from Non-profit Agencies, Cities, Public Housing, Health Departments, Schools Systems, Ballard Health, Churches and local non-profits updating each other and communicating on COVID-19 and community issues.

*Please note that HUD allocations were distributed on 2/25/2021 to grantees. The Bristol, TN Community Development Advisory Board approved projects to be presented to City Council on 4/13/21 and Bristol, TN City Council approved the recommendation and projects on 5/4/21 with a resolution. HUD informed staff that a revised CDBG grant amount on 5/13/21. Since the additional allocation would fund no new projects and was under the 20% substantial amendment number, staff did not need to re-advertise or hold an additional public comment period. The \$3,114 CDBG grant increase only affected administration and Rehab/Reconstruction activities.

Narrative

Bristol, Tennessee is the Lead Entity for the Northeast TN/VA HOME Consortium. Consortium members include Bristol, Kingsport, Johnson City, Bluff City, Sullivan and Washington Counties in Tennessee and Bristol, Virginia. The Department of Community Development is responsible for the administration of Bristol, Tennessee's HOME and CDBG funds. Bristol is responsible for preparing the Consolidated Plan, Annual Action Plan and the CAPER. They are also responsible for all IDIS input for HOME and Bristol, TN CDBG. The City processes all HOME payments, conducts a quarterly Board meetings and holds public hearings. Bristol, Tennessee is ultimately responsible to the Knoxville HUD Field Office for properly administering the HOME Program.

The First Tennessee Development District serves as the Administrative Agent for the HOME Consortium. As such, they are responsible for administering all projects undertaken by the Consortium, i.e., homeownership, rehab/reconstruction, rental rehab and CHDO. They prepare member entity subrecipient agreements as well as CHDO agreements. They assist with the preparation of the Consolidated Plan, Action Plan and CAPER. They attend all Consortium meetings and public hearings. Administration is defined as negotiating a contract, providing regular oversight, reviewing environmental review records, monitoring, risk-based evaluation of projects, authorizing reimbursement and certifying that all requirements have been met.

The City of Bristol has been receiving CDBG grant funds since 1976 and HOME Consortium grants since 2003. We are proud to say that we have had minimal problems throughout the years.

Bristol's efforts to broaden public participation in the development of this Action Plan include:

- Holding meetings in ADA-accessible locations (when not virtual due to COVID-19)
- Including Spanish language in the public hearing ads
- Providing copies of the Draft Plan at central locations, i.e., Bristol Public Library, Slater Community Center, online at Bristoltn.org and in the Community Development office.

AP-10 Consultation - 91.100, 91.200(b), 91.215(l)

1. Introduction

Coordination with federal and local agencies, along with non-profit and for-profit organizations providing services to low- and very-low income families in the communities is essential for the effectiveness of the CDBG and HOME programs. Consultation with the communities and affected service providers is a fundamental component of the Consolidated Plan and Action Plan process. The Northeast Tennessee/Virginia HOME Consortium welcomes and encourages the participation of all of its citizens in the development of these plans and in the review of progress in implementing plan activities. Bristol, Kingsport and Johnson City all have Citizen Advisory Committees. Low- and low-moderate income persons, persons with disabilities, minorities and non-English speaking persons are encouraged to participate in the planning process. Additionally, residents of public housing and other assisted housing are encouraged to voice their needs and their opinions on the participating jurisdiction's current and future direction. Other stakeholders consulted in this plan include community and faith-based organizations, health care providers, Housing Authorities in each locality, Appalachian Regional Coalition on Homelessness (ARCH), City and County Departments of Social Services and school systems. All are encouraged to become involved in the planning process. The Cities provide translators for non-English speaking persons who request assistance at least three days prior to public hearings or other meetings during the planning process. Persons who need auxiliary aids or other assistance to be able to fully participate may request assistance at least three days in advance of the public hearing or meeting. Drafts of the plans have been posted on the Cities' webpages, placed in City Hall, Housing Authorities, and in local library branches. Notices of public meetings and hearings have been published in local newspapers in each jurisdiction.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l)).

To ensure the participation of and coordination between public and private agencies, the participating jurisdiction's staff is frequently involved in various activities with the agencies and regularly attends meetings that address community needs. Remaining in close contact with vital housing and service providers, either in person or by phone, gives staff and the agencies a better understanding of current and changing needs. Jurisdictions in the Consortium area work diligently to keep abreast of issues that exist or that may arise that affect our homeless, special needs and/or low-income residents. Some of the agencies contacted include: Bristol(s), Kingsport, and Johnson City Redevelopment and Housing Authorities, local health departments, each jurisdiction's social/human service agency, United Way, ARCH, Frontier Health, Legal Aid of Northeast Tennessee and various divisions of the Planning departments, including Code Enforcement and Inspections. The following transportation planning bodies that serve the Consortium area are available for consultation when addressing the needs of low-income people: Bristol, TN/VA Urban Area Metropolitan Planning Organization, Johnson City

Metropolitan Transportation Planning Organization and the Kingsport Metropolitan Transportation Planning Organization.

Bristol, Tennessee, CDBG funds are utilized on a citywide basis. We have not designated a revitalization area or deemed an area as slum and blighted.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

Each Participating Jurisdiction in the HOME Consortium attends regular meetings of its respective Continuum of Care. Tennessee localities and agencies attend the Appalachian Regional Coalition on Homeless monthly meetings and Bristol, Virginia attends the Southwest Virginia Continuum of Care meetings. Both organizations are comprised of a group of agencies that focus on issues pertaining to all aspects of homelessness. Often homelessness issues cross state lines so coordination between the two Continuums as well as coordination with the HOME Consortium is essential to efforts to provide services to the homeless and those at risk of becoming homeless.

Through participation of the members of the CoC's the agencies can more effectively address the needs of homeless individuals and families, including homelessness prevention; case management; permanent supportive housing, emergency services; food and clothing; medical assistance; transportation services; and transitional housing. Each Continuum has intake workers that screen persons to determine particular needs and make proper referrals based upon individual or family needs.

Workshops are periodically held to provide information on the most urgent and current needs of the homeless and to solicit input from local agencies and organizations that may be helpful to other shelter or service providers in better meeting the needs of this population.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

Several years ago, Tennessee Housing and Development Authority (THDA) asked that local municipalities not apply for ESG funding rather than allow the individual shelters to competitively apply themselves.

THDA is the State recipient and all applications are awarded through a state competitive process except for Johnson City, TN, who receives an annual set-aside. Johnson City is responsible for its own ESG application and sub-award process to subrecipients to be used for eligible ESG activities exclusively inside Johnson City limits, and subsequent project management and administration. All Continuum of Care ESG applicants are required to participate in ARCH Coordinated Entry System and report in local Homeless Management Information System (HMIS) or comparable database if DV provider regardless if

competitively funded or Johnson City set-aside funded. ARCH evaluates the performance of the homeless system and individual projects, including those funded with CoC and ESG funds, and identifies project performance metrics and determines how each projects' performance should be incorporated into the CoC and ESG ranking process. THDA must consult with the CoC in determining how to allocate ESG funds based on performance measures and gaps analyses, project eligibility, and annual Point-in-Time, Annual Homeless Assessment Report, Systems Performance Measurements, and Longitudinal Systems Analysis Reports. ARCH has established Written Standards for CoC and ESG programs that provide consistent CoC-wide operative procedures, and CoC-approved HMIS Policies and Procedures for the operation and administration of HMIS, which are reviewed annually.

Narrative

The Appalachian Regional Coalition on Homelessness is the region's Continuum of Care organization in Tennessee. Nonprofit service agencies who are members of ARCH attend bi-monthly meetings and provide data on the homeless through the Homeless Management Information System (HMIS).

The Tennessee Housing Development Agency provides state Emergency Shelter Funds to nonprofit organizations, i.e., women's domestic violence shelters, day centers and Salvation Armies who, in turn, attempt to address the needs of the homeless.

People Incorporated is the Continuum of Care for Bristol, VA. The City of Bristol, VA receives a copy of the community action agency's annual community needs assessment to inform its 5-year plan.

The Citizens' Participation Plan that was developed for the City of Bristol, Tennessee and then created for the Northeast Tennessee/Virginia HOME Consortium continues to be in effect. There were several public meetings from the beginning stages of development of the Plan in order to gather information on community needs from citizens and local service providers. The first public hearing was held at a Community Development Advisory Committee (CDAC) meeting in Bristol on January 12, 2021, for both CDBG and HOME programs. A second public hearing was scheduled for May 4, 2021, at the Bristol Tennessee City Council meeting.

Additional community meetings were/are being held at various locations in Bristol, VA, Kingsport, TN and Johnson City with regard to their individual CDBG Action Plans.

Draft copies of this Action Plan were made available to the public at the Bristol Public Library, Bristol Housing, online at BristolTN.org, and at each member of the Consortium's Community Development Departments.

All meetings were conducted in locations that were accessible to disabled persons and advertisements indicated that arrangements would be made for non-English speaking persons and for the hearing impaired.

Expected Resources

AP-15 Expected Resources - 91.420(b), 91.220(c)(1,2)

Introduction

Bristol, Tennessee receives CDBG funds as an entitlement city. We also receive HOME funds from HUD through the Northeast Tennessee/Virginia HOME Consortium that is then allocated by HUD's percentage rate per locality.

Bristol, Tennessee as well as Bristol, VA, Kingsport, TN, and Johnson City, TN also received CDBG-CV funding in 2019/2020 through the Coronavirus Relief and Recovery CARES Act to prevent, prepare for and respond to the COVID-19 pandemic. Each community designated funding based on area need. Communities are not expected to receive any additional CARES funding.

Table 2 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

Bristol, Tennessee, along with the other HOME Consortium members, will partner with nonprofits and other agencies such as Habitat for Humanity, Appalachian Service Project, United Way, People, Incorporated, Eastern 8 Community Development Corporation, Horizon Community Development Corporation, First Tennessee Development District and local/regional financial institutions to leverage HOME dollars and to generate the required 25% match. The CDBG program allocations will be leveraged through each community's general fund dollars, partnerships with local service providers and in-kind contributions.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

Occasionally, a resident or absentee property owner will donate a house or lot to the City in order to avoid paying taxes or to pay for upkeep on the property. Other times, a dilapidated structure may be demolished leaving a vacant lot. A lien is placed on the property for the cost of demolition and any upkeep the City paid for safety reasons or blight elimination. When this happens, the City may donate these lots to YouthBuild, Habitat for Humanity, Appalachian Service Project, or some other similar entity to be used for new construction for eligible households.

Discussion

The City of Bristol, Tennessee is a part of the Kingsport-Bristol-Bristol, Tennessee-Virginia Metropolitan Statistical Area and is a Department of Housing and Urban Development Community Development Block Grant Entitlement City. As such, Bristol receives a formulated amount of funds annually. The CDBG program is authorized under Title 1 of the Housing and Community Development Act of 1974, Public Law 93-383, as amended; 42 U.S.C.-5301 et seq. This year Bristol, Tennessee expects to receive \$214,415 in Community Development Block Grant (CDBG) funds and \$1,107,741 in HOME funds.

The projected use of funds has been developed to give maximum priority to activities that will carry out one of the national objectives as follows:

1. Benefit low- and moderate-income (LMI) families.
2. Aid in the prevention or elimination of slums or blight.
3. Other community development areas which demonstrate a particular urgent need or because existing conditions pose a serious and immediate threat to the health or welfare of the community and where other financial resources are not available to meet such needs.

The City of Bristol Tennessee certifies that the following activities proposed for the coming year meet one of the three above-listed national objectives.

Table 3 – Goals Summary

Goal Descriptions

1	Goal Name	Homeowner Rehabilitation
	Goal Description	To provide expanded opportunities to qualified very low, low, and moderate income homeowners to rehabilitate their homes to correct major code violations. Bristol, Tennessee & Virginia, Johnson City and Kingsport will continue their current rehab programs with CDBG funds. Consortium funds will also be used for rehabilitation/reconstruction projects.
2	Goal Name	First Time-Homeownership Opportunity
	Goal Description	To expand first-time homeownership opportunities for very low, low, and moderate income households. Bristol, Tennessee and Johnson City will continue to fund their current Affordable Homeownership Programs with CDBG monies, as well as a Homeownership Program being offered Consortium-wide through HOME funds.
3	Goal Name	Rental Housing Opportunities
	Goal Description	To provide expanded rental housing opportunities to qualified very low, low, and moderate income households.
4	Goal Name	At-risk supportive housing development /TBRA
	Goal Description	To help develop transitional and supportive housing for at-risk clients.
5	Goal Name	Single-Family Housing Development
	Goal Description	Develop new single-family housing units within the Consortium working with local CHDO's and developers.
6	Goal Name	Neighborhood Revitalization
	Goal Description	These funds will be used for elimination of blight through demolition of dilapidated structures, improvement to public facilities, street/sidewalk improvements and other activities that will improve the sustainability of low-income neighborhoods and make them safer, more aesthetically pleasing, and create more viable living conditions.

7	Goal Name	Public Services
	Goal Description	Because of the high number of low- to moderate income persons residing in Bristol, TN, many services are offered but many are underfunded because of decreased available dollars. Services such as affordable child care, medical assistance, services to abused/neglected children, services to victims of domestic violence, etc. are vital for a thriving community.
8	Goal Name	Homeless Assistance
	Goal Description	Over this Consolidated Plan (2020-2024 HUD program years) we plan to address homeless issues including determining the services and shelter options that are available and those that are still needed, transitional housing, housing and services for veterans and persons returning from institutions.

AP-35 Projects - 91.420, 91.220(d)

Introduction

The Consolidated Plan focuses on Homeowner Rehabilitation as the number one Goal for both the CDBG and HOME Consortium programs. This is due to the age of housing, the high number of low-income homeowners, and the general low-income population has caused many houses to deteriorate due to lack of private funds to meet the needs in the region. Homeowners many times are forced to live without adequate heating, unsafe wiring, and other unsafe living conditions. CDBG and HOME funds will address many of these issues.

Other areas of concern include affordable housing in the region and neighborhood revitalization. Bristol, TN is focusing on neighborhood revitalization with sidewalk improvements in qualifying neighborhood and demolition of dilapidated/blighted properties. Dilapidated housing and other structures cause blighted conditions in neighborhoods and deter homeownership, rental, and cause a declining interest in living or enjoying recreational facilities in these areas. With the demolition of unsafe structures, installation of sidewalks, and improvements in streets and neighborhood facilities, we believe we can continue to rejuvenate some of these areas of the City and make them attractive places to live, play, and conduct business.

Table 4 – Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Bristol, TN has a Community Development Advisory Committee (CDAC). CDAC Acts in an advisory capacity to assist in the planning and implementation of projects as part of the City’s CDBG program and as such in the CDBG-CV funding requests. CDAC also reviews projects and services and act as a liaison with the community. CDAC make recommendations on projects and problems are forwarded to City Council in the annual Action Plan through the Development Services Office.

The Northeast Tennessee/Virginia HOME Consortium has an agreed upon percentage that has been used for several years. The individual community determines what amount to put into each of the projects (homeownership or rehab/reconstruction).

AP-50 Geographic Distribution - 91.420, 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The Bristol, TN CDBG and the Northeast Tennessee/Virginia HOME Consortium have always directed funding to helping qualifying individuals & families.

Geographic Distribution

Target Area	Percentage of Funds

Table 5 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

Housing needs and public services will be addressed citywide because of the nature of the projects themselves. They will serve income-eligible persons with the greatest need. Infrastructure improvements will be made in low-income areas of the City. Public service funds will be used for presumed benefit/limited clientele persons.

The Northeast Tennessee/Virginia HOME Consortium utilizes the most recent HOME Consortia Percentage Report to make allocations to each member based on the percentages provided by HUD. These percentages are applied once the admin and CHDO sub funds have been applied. Most recently the % is as follows;

- CHDO Set-aside - 15% min
- Bristol, TN - 11%
- Bristol, VA - 9%
- Kingsport - 23%
- Johnson City - 27%
- Bluff City - Flat \$10,000.00
- Sullivan County - 17%
- Washington County - 13%
- Administration - 10%

Discussion

Johnson City, Tennessee receives the largest percentage (27%) of the HOME allocation. Johnson City has the largest population with more than 84,000 households and approximately 19.1% poverty rate. There is a citywide need for decent housing, neighborhood restoration and services due to the low income of the area and the inability of homeowners to make necessary repairs to their homes. Local,

state and federal funding cuts have also reduced the amount of revenue coming into the City to make infrastructure repairs and to provide other needed services.

Affordable Housing

AP-55 Affordable Housing - 91.420, 91.220(g)

Introduction

Affordable Housing Goals:

Bristol, Tennessee CDBG funds will be used to rehab 8 single-family units and Bristol, TN HOME funds will be used to assist 2 low-income families into homeownership and 1 possible reconstruction.

HOME Consortium: Consortium 2021 allocation funds of \$1,107,741.00 plus prior year funds will be utilized by the remaining members of the Consortium to complete at least six (6) reconstructions and two (2) major rehab projects for low-income households as well as assist a least six (6) low-income families into homeownership.

The "One-Year Goals for the Number of Households Supported Through" chart below only reflects Bristol, Tennessee CDBG Goals only.

HOME CHDO funds will be subfunded to a Community Housing Development Organization(s) for HOME-eligible project.

The process for soliciting & funding applications is generally on a first come first served basis, unless the need is urgent.

Homeowners who apply for this assistance do so voluntarily and with the understanding that they are not being displaced under HUD's Acquisition, Relocation and Displacement Policy. They may be required to find alternative housing during the time period of the rehabilitation project. In some cases, a rehab project may not include the disturbance of lead paint surfaces; however, the City may still deem it in the best interests of the homeowner to find alternative housing with a family member or friend in order that the contractor may expedite the project. This program does not fund the expense of temporary housing for each family.

Detailed information may be obtained from any of the Community Development or Development Services offices in the area including Bristol, Kingsport and Johnson City for the HOME Consortium program, First Tennessee Development District and each City website also has basic program information, applications and income guidelines.

Discussion

One-Year Goals for Fair Housing Enforcement are as follows:

Local jurisdictions follow the State of Tennessee and Virginia Fair Housing Ordinance in adjudicating fair housing issues. All Tennessee members of the Consortium receive services from the East Tennessee Legal Services agency and the Knoxville and Richmond area HUD offices to address the most serious fair housing issues.

Each of the Cities within the Consortium have previously adopted a Fair Housing Ordinance that prohibits discrimination in housing practices and incorporates provisions of the Civil Rights Act of 1964, the Fair Housing Act of 1968 and the Fair Housing Amendments Act of 1988. The documents include protection for all citizens regardless of race, color, sex, religion, national origin, disability or familial status.

Presently, there are no private organizations in the community that address fair housing issues or provide fair housing services. Most agencies within the area tend to provide little more than referral services.

Each jurisdiction under the HUD program guidelines provides informational programs to the public through printed material, public notices and local media advertising. The local Board of Realtors in each area of the Consortium, as well as the Mortgage Bankers Association, also provides written materials to the public and to their housing clients.

The Consortium's Administrative Agent, the First Tennessee Development District, provides informational programs to area realtors, lenders and appraisers in order to better educate our partners with regards to fair housing practices.

Public awareness and education of Fair Housing Laws are a continuing activity conducted by staff. These activities include interviews with the media, distribution of informational brochures, display of Fair Housing posters and publication of information and advertisements to make the general public more aware of Fair Housing issues. Each year, resolutions designating April as Fair Housing Month are passed by local governing bodies.

Legal Aid of East Tennessee (LAET) is the agency to which the majority of discrimination claims are directed. They report that the greatest number of discriminatory practices involve race and familial status (women with children). Statistical information regarding number of complaints received and their

resolution is available from Legal Aid of East Tennessee. LAET has conducted training sessions with landlords and key housing providers and their staff (housing authorities), as well as with tenants, reviewing the Landlord Tenant Act. Regular Fair Housing Act outreach to voucher recipients at Kingsport Housing & Redevelopment Authority and to the Bristol Tennessee Housing Authority is conducted. Voucher landlords in both Bristol and Kingsport have been trained on the Fair Housing Act as have the staff members. Additionally, the landlords and tenants in Johnson City have received training on the Fair Housing Act in a cooperative effort with the Johnson City courts. Special efforts at outreach regarding the Fair Housing Act have been made to the HOPE VI tenants in Kingsport with the assistance of the Central Baptist Church.

Through these educational programs and services, we are striving to provide information to any who feel they may be experiencing discrimination, whether it be the disabled, the elderly, or those in any of the fair housing protected classes of people.

AP-60 Public Housing - 91.420, 91.220(h)

Introduction

There are 4 Public Housing Authorities within the Consortium's jurisdiction. None of the Consortium's member governments manage the public housing programs in their respective cities; however they do work together on community needs. Below is a description of the action that the PHAs will undertake. Consortium members individually and the Consortium proper mainly serve in an advisory role in carrying out these actions.

Actions planned during the next year to address the needs to public housing

The Public Housing Authorities within the Consortium area will continue to provide affordable rental housing to the very low and low-income families through good management, use of capital improvement funds to maintain units and while encouraging active resident initiative programs.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

The Public Housing Authorities, through their Section 8 Assistance Program will continue to expand opportunities for affordable rental housing as well as assisting with homebuyer opportunities through their Section 8 to Homeownership Voucher Program.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

No PHA within the Consortium is designated "troubled".

Discussion

The Consortium area has well respected Public Housing Agencies who go above and beyond to help citizens.

AP-65 Homeless and Other Special Needs Activities - 91.420, 91.220(i)

Introduction

The Northeast Tennessee/Virginia HOME Consortium is authorized under Title I of the Housing and Community Development Act of 1974, as amended. Its mission is to identify gaps in housing and homeless services to determine projects for which the Consortium will use its resources to address priority needs. This includes services to the homeless and other special needs activities. Included in identified priorities are: developing transitional and special needs housing for at-risk households; assisting the expansion of support services for at-risk populations; maintain/develop adequate affordable housing units for the elderly, persons with physical and mental disabilities, veterans, etc.; support agencies that provide affordable daycare, health services, drug/alcohol dependency counseling, etc. Another goal of the Consortium and the Appalachian Regional Coalition on Homelessness.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The participating jurisdictions in the HOME Consortium plan to join ARCH in its efforts to aggressively outreach to all homeless populations living on the streets and in shelters who otherwise would not seek assistance and to help them receive a clinical assessment and referral for medical treatment of physical and psychiatric disorders including substance abuse; help with providing long-term transitional residential assistance, case management and rehabilitation; and help with employment assistance and linkage with available income supports and permanent housing.

Also many non-profit agencies within the Consortium footprint participate in the area's CoC (ARCH & People Inc.), these agencies play an important role in reaching work and working to help homeless persons.

Addressing the emergency shelter and transitional housing needs of homeless persons

Each participating jurisdiction has its own Salvation Army as well as at least one more rescue mission or faith-based shelter. Currently there is a minimally sufficient level of emergency shelter overall in the Consortium area, but additional ones could be utilized with longer stay times (average is 5 days) and available transportation to access available shelter. ARCH provides transportation as able. There are several transitional housing units in the area, but not nearly enough. The transitional housing programs in the area work; however, the Consortium area averages only one transitional housing unit for every three homeless persons. The Northeast Tennessee/Virginia HOME Consortium will work with Appalachian Regional Coalition on Homelessness and People Incorporated to help raise awareness, apply for funding, and other measures to increase the number of transitional housing units available as

well as help these agencies build capacity to better serve the needs of the homeless population.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Affordable permanent housing for those persons and families coming out of homelessness, shelters and transitional housing continues to be a challenge in the Northeast Tennessee/Virginia region. Much is needed in the way of affordable housing for homeless clients. Homeless clients with no income are the most difficult to house. Primary efforts have been in the area of rental housing rehabilitation and development, single-family rehabilitation and single-family homeownership opportunities. Over the past few years these efforts have been helped by additional funding from entities such as local HUD CDBG programs; HUD Housing Choice Rental Vouchers to very low, low and moderate income persons and households for affordable rental housing; HUD Supportive Permanent Housing through ARCH Continuum of Care Grant Program in partnership with local nonprofit housing providers; Habitat for Humanity; private for-profit entities and local faith-based service providers that have made commitments to develop permanent in collaboration with ARCH and local service providers.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The Consortium includes the Cities of Bluff City (TN), Bristol (TN), Bristol (VA), Johnson City (TN), Kingsport (TN), Sullivan County (TN) and Washington County (TN). The Consortium was originally created and funded effective July 1, 2003. Prior to this time, HOME funds were received from the Tennessee Housing Development Agency (THDA). The Northeast Tennessee/Virginia HOME Consortium has identified gaps in housing and homeless services to determine the projects for which the Consortium will use its resources to address priority needs. • The expansion of first-time homeownership opportunities for very low, low and moderate income households; Increase housing and supportive services for successful re-entry into the community for clients coming out of incarceration for criminal offenses. • Expand opportunities for very low to moderate income homeowners to rehabilitate their homes to correct major code violations and thus preserve their housing; • Expand rental housing opportunities for very low to moderate income households; • Develop transitional and special needs housing for at-risk households; • Develop new single-family housing units

within the Consortium; • Assist in the expansion of support services for the at-risk population; • Assist with economic development opportunities through the creation or expansion of job opportunities for low and moderate-income individuals.

Discussion

The biggest challenge homeless service providers face when trying to house homeless and especially chronically homeless individuals is area-wide lack of housing. There is no available Permanent Supportive Housing (PSH). Despite availability of Rapid Rehousing (temporary rental assistance in permanent housing), landlords are not willing to accept clients with chronic mental health conditions; criminal backgrounds; bad credit history; little or no income; legal issues; arrearage, destruction of property, etc., sex offenders, and chronic substance abuse. Case Managers are unable to guarantee financial assistance beyond the proscribed program duration – most RRH projects within ARCH CoC are short term (1-3 months) and few are mid-term (4-12 months) – making landlords adverse to entering into a one-year lease (program requirement). Landlord incentives provided by the CARE Act will hopefully allay these barriers, and ARCH CoC Lead is implementing a CoC-wide Landlord Incentive policy in accordance with HUD notice. This population would benefit from Transitional Housing, where case management can work with them to overcome these barriers, while preparing for Rapid Rehousing to Permanent Housing solutions.

Conversely, due to COVID-19 pandemic economic fallout, we have seen a huge influx of imminently homeless present for assistance. In light of the rental eviction moratorium ending and THDA allowing homeless prevention assistance, the bulk of the funding under the CARE act is targeted for both rental and financial assistance.

AP-75 Barriers to affordable housing -91.420, 91.220(j)

Introduction

There is a definite correlation between the rising cost of land, building materials and development costs as it relates to the lack of affordable housing in the Consortium area. All three of these factors have had a hand in driving up the cost of housing in the Consortium area putting it out of reach to the vast majority of low and moderate-income households. The Consortium members administer a number of ordinances and regulations that may in some ways be considered obstacles to affordable housing; however, each represents an integral part of administration for the greater good of the community.

The following regulations, codes and policies were examined and determined necessary elements for city-wide planning for public safety and welfare. However, as noted each incorporates some degree of impediments to affordable housing:

1. Zoning Regulations
2. Subdivision Regulations
3. New Home Construction Codes
4. Unsafe Building Abatement Code
5. Property Taxes - City and County
6. Utility Board Restrictions
7. Building Codes
8. Code Enforcement
9. Unfunded Mandates
10. Poor Credit History
11. Inadequate Paying Jobs.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

Efforts to remove barriers to affordable housing include the following:

Continuation of the Fair Housing Program to assure that every citizen has equal access to housing opportunities. Fair Housing Resolutions will be adopted declaring April Fair Housing Month. Bristol, Tennessee participates in a media project designed to enhance public awareness of Fair Housing laws. Johnson City conducts workshops, advertising and a complaint referral network to educate both providers of housing and those needing housing in our local community. Bristol, Virginia advertises on a local free public tv channel.

Land Use Controls - Planning Commissions will continue working to implement land-use controls that promote housing development in a safe, efficient manner that is harmonious with existing neighborhoods.

Zoning Ordinance - Board of Zoning Appeals shall monitor requests for zoning variances due to hardships imposed by specific zoning regulations to determine if existing regulations are unreasonable.

Building Codes - Continue to monitor the latest Building Codes for changes in restrictions which might be extraordinary and potentially unreasonable.

Infrastructure Requirements - The Planning and Engineering Departments will scrutinize the impact of infrastructure costs, along with utility fees and subdivision design requirements on the provision of affordable housing.

Discussion

Everyone needs a safe, livable and affordable place to call home. Through a variety of programs, policies, and partnerships, the City of Bristol has always been committed to working toward this end. To further this commitment, the Development Services Department has prepared a Housing Study to evaluate existing housing data and provide recommendations to improve housing for residents. In addition to the fact that housing is one of the most important factors in the lives of citizens, it is also the largest consumer of land in the City of Bristol, Tennessee. Though housing in the City is largely a private commodity, the local government has an impact on housing through its zoning, subdivision, building and property maintenance regulations. Housing is also impacted by the provision of City services such as fire and police protection, the provision of water and sewer services, street maintenance, and the maintenance of parks and other public facilities. You can view the Housing Study online at - <https://www.bristoltn.org/DocumentCenter/View/8733/Housing-Study---August-2020?bidId=>.

AP-85 Other Actions - 91.420, 91.220(k)

Introduction

The City of Bristol, Tennessee and the HOME Consortium plan the following actions to help address the housing and community development needs of its residents, especially low/moderate income residents.

Actions planned to address obstacles to meeting underserved needs

Lack of available and sufficient resources is the main obstacle to meeting underserved needs - both financial and administratively. Bristol, Tennessee and the Northeast Tennessee/Virginia HOME Consortium will continue to collaborate with a number of human and social service agencies, ARCH, People Incorporated, public school systems, and other necessary organizations to identify potential resources for meeting the needs of its residents. Each community in the Consortium will continue to support the efforts of service agencies in order to maximize the use of available resources and to obtain additional ones whenever possible.

Actions planned to foster and maintain affordable housing

Bristol, Tennessee and the HOME Consortium will use the majority of its CDBG funds and all its HOME funds to rehabilitate low-income owner-occupied housing units, encourage potential homeowners to purchase homes, and rehabilitate rental units to provide decent affordable housing units. We will continue to partner with First Tennessee Development District, Eastern 8, People Inc., and other housing providers in order to maximize the funds we have available to provide substantial rehabilitation/reconstructions when necessary.

Actions planned to reduce lead-based paint hazards

In 2000, federal legislation was enacted to protect young children from lead-based paint hazards. The regulations set hazard reduction guidelines that include increased requirements for reducing lead in house dust. The members of the Consortium meet these requirements by taking the necessary steps outlined in the law to work with certified lead-based paint inspectors to ensure that all projects undertaken undergo visual assessments (homeownership), risk assessments and clearance examinations (rehabilitation). HUD certified lead paint contractors bid on the projects and follow all rules and regulations (safe work practices) associated with lead work.

The Consortium has had success in the past with being able to identify instances of possible lead-based paint poisoning within the Consortium boundaries. Through work with our local housing authorities and local health departments, we have implemented a process of information dissemination to housing authority residents and the general public using HUD and Department of Health and Human Services information concerning the hazards of lead-based paint. We have also established a policy in our rehabilitation program to perform visual risk assessments and clearances in any structure we intend to

rehabilitate and to require replacement paint and encapsulation in specifications in cases where older flaking paint is found. Visual assessments are performed for the Homeownership Program.

Contractors who perform rehabilitation projects have been trained in lead-safe work practices. EPA regulations for renovators require that contractors obtain additional certification. An additional booklet, "Renovate Right: Important Lead Hazard Information for Families, Child Care Providers and Schools" is being distributed along with the "Protect Your Family From Lead in Your Home" booklet.

Health Departments throughout the Consortium area participate in testing of children who have been identified as possibly being exposed to high levels of lead.

Actions planned to reduce the number of poverty-level families

Employment opportunities are key to reducing the number of households living in poverty. Often, the lack of education and/or skills training for many adults limit their employment potential. Just as often, lack of adequate paying jobs causes families in this area to live below the State and National income levels. Improving the economy within the Consortium area is an essential element in the antipoverty strategy. Kingsport's Economic Task Force, Bristol, Tennessee's Industrial Development Board, Bristol, Virginia's Economic Development Committee, and in Johnson City, the Washington County Economic Development Council are all working to increase opportunities for families living in poverty.

In 2004, the Sullivan County Economic Development Partnership was formed and is now known as NETWORKS. It is composed of the cities of Bluff City, Bristol, Kingsport and Sullivan County, Tennessee. The Partnership is a governmental entity that consolidates the economic development program for all of Sullivan County. This entity is charged with establishing, coordinating and implementing a comprehensive economic development agency whose purpose is to develop and implement an overall economic development strategic plan. The Partnership seeks to stimulate development in new manufacturing and services. Existing businesses, retain destinations/venues, small business and startups and support hospitality and tourism.

Objectives used to meet this goal involve the use of federal funds for homeownership assistance, rehabilitation of housing, infrastructure improvement, utility tap fees and PSAs to educate the general public about fair housing choice. Efforts will be coordinated with the local Housing Authorities Comprehensive Grant programs to provide rental units for low-to-income elderly, the disabled and families. Additionally, ARCH and others will coordinate with local agencies using Tennessee ESG funds to increase the amount and quality of emergency shelter accommodations for the homeless should the funds become available.

Actions planned to develop institutional structure

The institutional structure through which the Consolidated Plan for the Northeast Tennessee/Virginia HOME Consortium is implemented is as a partnership forged between private businesses, nonprofit

organizations, and public institutions. The key partners are public institutions, nonprofit organizations, and private development and lending institutions.

All members of the Northeast Tennessee/Virginia HOME Consortium continue solid, productive relationships with all agencies served and those that serve our communities. Advisory committees in Johnson City, Kingsport and Bristol provide advice and guidance on needs.

Bristol, Tennessee's Community Development Office is responsible for carrying out the provisions of the Consolidated Plan for the Consortium and for its own CDBG Action Plan. Working in conjunction with its public and private partners, City staff distributes, monitors, and executes the functions of the Plan and reports on its progress to HUD. Coordination with other departments within City administration is essential to smooth delivery of services and the achievement of desired outcomes.

Primarily, the City's strategies will be conducted with various partnerships it enjoys with public and private housing providers, service providers, shelters, and human services agencies. The City's goal is to remain in close working relationships with all the above-mentioned agencies and entities in order to better serve our communities.

Actions planned to enhance coordination between public and private housing and social service agencies

As discussed in the Consolidated Plan, Bristol as well as the other HOME Participating Jurisdictions actively works to coordinate community development efforts between public and private housing and social service agencies. The strategies to address the gaps include the following:

- Strengthen the intake process and procedures of homeless persons to provide a clearer understanding of the services needed from partnering agencies;
- Work with housing providers, public and private partners to ensure potential homebuyers and/or renters are educationally equipped to shore the responsibilities of homeownership or renting by providing financial management, homebuyer education, budgeting, etc. in order to successful maintain housing;

Work with service agencies by providing or accepting referrals, funding services when possible, determining individual/family specific needs and obtain them.

No forms of investment other than ones already listed are planned to be used.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

RECAPTURE PROVISIONS: The Northeast Tennessee/Virginia HOME Consortium has established recapture provisions for HOME-assisted homebuyer activities. The HOME rule does not impose long-term affordability or occupancy requirements associated with rehabilitation/reconstruction assistance to owner-occupied housing; however, the Consortium has imposed the requirements listed below.

Homeownership - The Consortium proposes to provide deferred payment, due-on-sale loans with a 10-year maturity date. These funds will be recaptured in full during the first five years if the property is sold. During the last five-year period, the funds will be forgiven 20% per year and recaptured accordingly. A Deed of Trust is the enforcement mechanism used to secure the recapture requirement. Homebuyers will also receive and sign a Recapture Acknowledgement form. The recapture amount is limited to the net proceeds available from the sale.

Rehab/Reconstruction - HOME funds will be used to make forgivable loans, with a minimum compliance period of five (5) years regardless of the level of HOME subsidy. The forgivable loan shall be reduced at the rate of 20% per year. Low and moderate-income single-family owner-occupied housing will benefit from the program in 2020-2024. Reconstruction of homes will result in a 10-year forgivable loan.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:
